To whom it may concern,

Re: Leo Crete - Letter of Recommendation

As Project Manager of Somerset College, I thoroughly enjoyed working with Leo Crete. This project involved the construction of a 600m perimeter fence on side of the property. The included the removal of the old fence, excavation of certain areas and the levelling of the ground to create a straighter line for the new fence.

From the beginning of the project, Anton le Roux of Leo Crete took on a very proactive approach. He provided us with nearly all of the required submittals prior to the issuance of the Notice to Proceed. By doing this, they were able to accelerate their construction schedule considerably.

This project was dependant on being constructed during the school holidays when no students were on site and within a very tight time-frame. They successfully provided the needed resources to run the project smoothly.

The on-site staff was always respectful and willing to adapt to the needs of the project. When challenges occurred, Anton personally provided valuable and mutually beneficial suggestions to keep the project on schedule and under budget.

This project was a success because of Leo Crete and we will be appointing him to complete our perimeter fence around the rest of the College.

If you need any additional information regarding their performance, please feel free to contact call me on 072 924 7066 or email at d.hermans@somcol.co.za.

Kind regards,

Deon Hermans
Project Manager
